A. SHIRISHA

FRONTEND DEVELOPER | REACT.JS | NEXT.JS | TYPESCRIPT | JAVASCRIPT | WORDPRESS

Hyderabad, India | +91-7816068117 | shirishasiri78160@gmail.com | LinkedIn: linkedin.com/in/shirisha78/ | GitHub: github.com/Shirisha-annaladasu

PROFESSIONAL SUMMARY

Frontend Developer with 3 years 2 months of experience building scalable, responsive, and user-focused web applications using React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, and WordPress. Experienced in frontend development, UI development, responsive web design, reusable components, admin dashboards, role-based access control (RBAC), REST API integration, Axios, form handling, data-driven interfaces, payment-related frontend flows, debugging, and cross-browser responsive validation. Delivered features across project management, taxi booking, news management, quizzes, polls, advertisements, educational games, WordPress websites, subscription platforms, and interactive 3D portfolio experiences.

TECHNICAL SKILLS

Languages

JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend

React.js, Next.js, React Native, Vue.js, Tailwind CSS, Bootstrap, Responsive Web Design, UI Development

State Management

Redux, Application State Management

CMS / 3D

WordPress, Three.js, React Three Fiber, Drei, Framer Motion

API / Backend

REST APIs, Axios, API Integration, Node.js, Express.js, MongoDB

Tools

Git, GitHub, Postman, Browser Developer Tools, Vercel, Supabase, Stripe

Core Expertise

Frontend Development, Responsive UI, Reusable Components, Admin Dashboards, RBAC, Forms, Tables, Validation, Debugging, Feature Development

PROFESSIONAL EXPERIENCE

Federal Soft Systems — Hyderabad | Frontend Developer

1 Hour Developer Web App | Next.js, React.js, Redux, Tailwind CSS

- Redesigned existing application interfaces and developed new frontend features based on business and user requirements.
- Built Admin, Client, and Developer workflows with role-based access, user-specific functionality, and project management features.
- Developed responsive dashboards with reusable React components, forms, tables, navigation, action controls, and validation.
- Integrated frontend screens with backend REST APIs and worked on payment-related frontend flows and API issues.
- Used Redux for shared application state and debugged UI, API integration, data rendering, and responsive behavior.

Tax Booking Web App | Next.js, React.js, JavaScript, CSS

- Designed and developed the admin-side interface for a taxi booking management application.
- Built dashboard screens for users, drivers, bookings, vehicle/cab availability, and operational workflows for Bangalore taxi booking operations.
- Created data-driven UI components and handled API loading, success, and error states.
- Implemented responsive layouts and resolved frontend UI, data-rendering, and integration issues.

A1 FlashNews Web App | Next.js, React.js, Redux, Tailwind CSS

- Developed the admin panel for a Telugu news web application and implemented content-management workflows.
- Built news creation and management features, quizzes, polls, and advertisement management modules.
- Implemented role-based controls for Reporter, Sub-editor, and Guest users.
- Used Redux for shared state and created responsive interfaces with reusable React components.

• Integrated and debugged API-driven functionality and improved admin-panel usability.

Brioq Game Web App | Next.js, React.js, JavaScript

• Developed admin dashboard functionality for educational game operations and structured user workflows.

• Built Student and Teacher management systems, math-based test functionality, and prize management features.

• Created reusable frontend components, responsive layouts, validations, data handling, and UI interactions.

• Debugged frontend functionality and implemented feature enhancements based on requirements.

ADDITIONAL PROJECTS

Golf Heroes — Golf Subscription, Charity & Draw Platform | Next.js, React, Supabase, Stripe, Vercel

• Developed a golf-themed subscription platform with Monthly and Yearly membership plans and user-facing subscription functionality.

• Worked on admin dashboard modules including Overview, Users, Draw Management, Charities, Winner Verification, and Reports.

• Implemented frontend flows for scores, charity, subscriptions, draws, winnings, and payment-related functionality.

• Integrated application data with Supabase and supported Stripe payment integration and Vercel deployment workflows.

Interactive 3D Developer Portfolio | Next.js, React, TypeScript, Three.js, React Three Fiber, Drei, Framer Motion

• Building an interactive game-inspired developer portfolio using a modern black-and-gold visual design system.

• Implemented 3D scenes and animated experiences with Three.js, React Three Fiber, Drei, and scroll-responsive interactions.

• Developed animated project, skills, loadout, contact, and portfolio sections with reusable React components.

• Created an animated cat-walking visual that responds to page scrolling and enhances the interactive portfolio experience.

• Focused on responsive UI, motion design, component reuse, accessibility-friendly structure, and modern frontend presentation.

WordPress Website Development | WordPress, HTML5, CSS3, JavaScript

• Worked on WordPress website modules including Rooms, Restaurant, Gallery, About, and Contact sections.

• Implemented responsive custom HTML/CSS interfaces, navigation, page layouts, visual consistency, and website content presentation.

• Supported client demonstrations and validated UI behavior across desktop, tablet, and mobile screen sizes.

• Resolved responsive layout and image-display issues during frontend validation.

KEY RESPONSIBILITIES & CONTRIBUTIONS

• Developed responsive and reusable frontend components using React.js, Next.js, JavaScript, and TypeScript.

• Converted business requirements and UI designs into functional web interfaces, dashboards, forms, tables, filters, and action-based controls.

• Implemented role-based functionality for Admin, Client, Developer, Reporter, Sub-editor, Guest, Student, and Teacher workflows.

• Integrated REST APIs using Axios and handled API response, loading, success, and error states.

• Managed application-level state using Redux and maintained consistent data across dashboard modules.

• Worked on payment-related frontend flows and investigated frontend payment API integration issues.

• Performed UI debugging, API integration debugging, responsive design fixes, data-rendering fixes, and browser validation.

• Used Postman and browser developer tools for API and frontend testing and validation.

• Maintained source code using Git and GitHub and collaborated with development teams on feature delivery.

• Improved responsive behavior and usability across desktop, tablet, and mobile screen sizes.

PROJECT & DOMAIN HIGHLIGHTS

Project Management • Taxi Booking • News & CMS • Quizzes • Polls • Advertisements • Educational Games • Student Management • Teacher Management • Testing & Assessments • Prize Management • WordPress Websites • Golf Subscriptions • Charity & Draw Management • Payment Flows • Interactive 3D Portfolio

EDUCATION

Post Graduation in M.Sc. Mathematics | Rayalaseema University | 2022

PROFESSIONAL STRENGTHS

Frontend Development • React.js & Next.js Development • TypeScript • JavaScript • Responsive UI Development • Admin Dashboard Development • Role-Based Access Control • REST API Integration • Redux • WordPress • UI/UX Implementation • Problem Solving • Debugging • Feature Development • Reusable Components • Cross-functional Collaboration
